SLIDING SHOWER SCREENS

Rollo

Rollo shower screens feature sliding doors in a fully framed or semi-frameless shower enclosure. The sliding door design is an excellent alternative to a swinging door, preventing water from dropping on to your bathroom floor. With no extra space requirement for the door to swing open, Rollo shower screens are well suited to bathrooms with limited space.

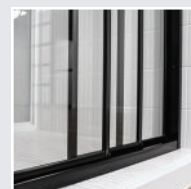

Cortani Interiors' extensive range of shower screens have been carefully curated to provide stylish, functional shower solutions for any bathroom design.

Our expert consultants can provide you with support and guidance to select a shower screen that suits your style, and your budget. Our range of Rollo shower screens are custom made right here in Australia and are installed by our expert technicians.

Framed screens feature a built-in door handle for a clean, minimal design.

Semi-frameless screens feature a flush fingerpull ring handle.

High quality ball bearing rollers and sturdy guides provide smooth sliding operation along a trackless sill. All sliding mechanisms are designed for maximum durability.

Selection Tip

For correct pricing, select the size that applies to the widest side of your shower space. For example, if your shower space is 900 mm x 1200 mm wide, then the 1200 mm price will apply.

Sliding doors enable easy access to the shower when space is limited, making them ideal for small bathrooms.

Raised sills along the base of the screen, and overlapping panels, reduce water splash.

Fully Framed Screens

201 Rollo

Two Doors + Fixed Panel

- Two sliding doors
- Can be installed for left or right entry
- One fixed panel
- Mounts between walls
- 2000 mm high

Size (w) x (h) mm
